HEALTH & WELLNESS CASE STUDY

Sending campaigns only to full automation. How to get *35%* of monthly revenue from email.

A Health & Wellness brand was sending campaigns, but had no automation set-up. They didn't know where to begin. We built their full automation suite - and more than doubled their revenue from email.

+127%
Growth in monthly email revenue

19% → 35%
Share of total revenue from email

67 days
From kickoff to results

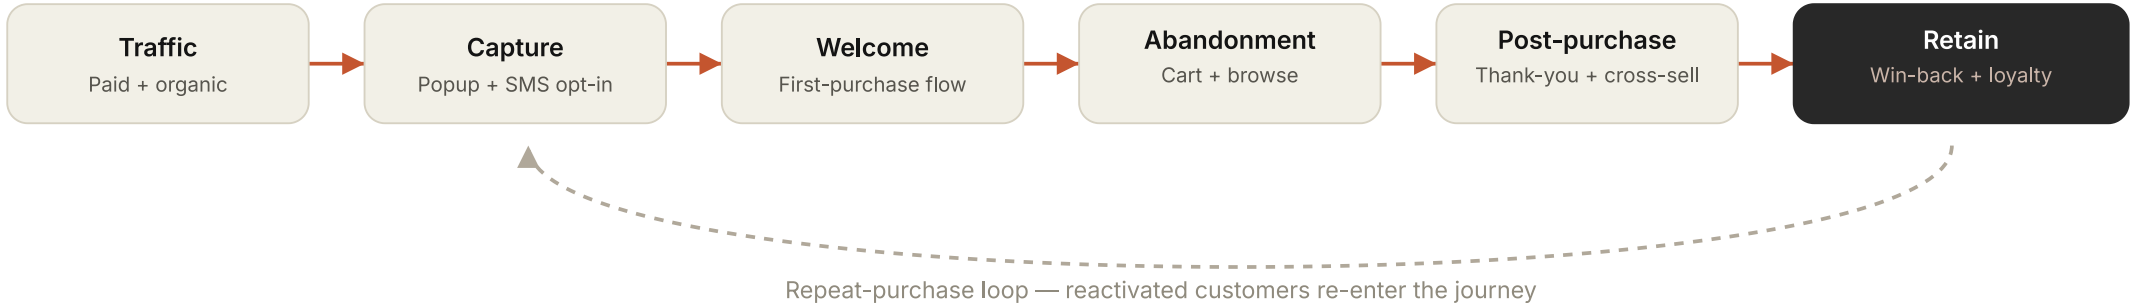

01 — THE APPROACH

One connected lifecycle, managed end to end.

We mapped every stage of the customer journey — from first click to loyal repeat buyer — and built the flows, segments, and campaign calendar to move each one.

The retention lifecycle we built

CAPTURE → CONVERT → RETAIN

Strategy

Data-led segmentation

Segmented the list by engagement, purchase history, and lifecycle stage to protect deliverability.

Build

10 core flows live

Welcome, cart, browse, checkout, post-purchase, replenishment, win-back and VIP flows deployed.

Optimize

Always-on testing

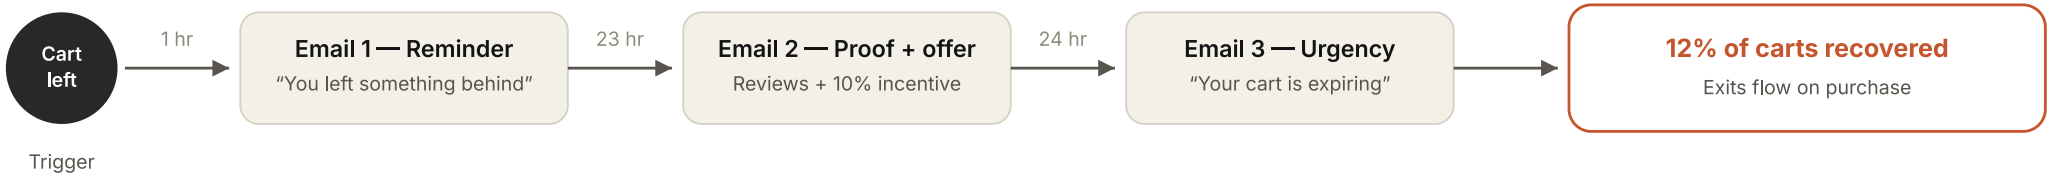

A/B testing on subject lines, offers, and timing, with weekly revenue reporting.

01 — THE APPROACH

How a single flow recovers revenue.

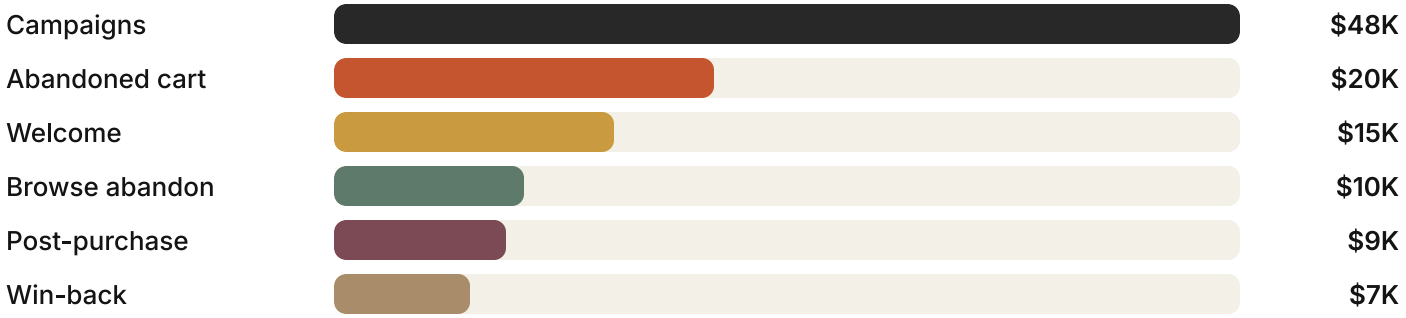

Anatomy of the abandoned-cart flow

AUTOMATED · TRIGGERED PER SHOPPER

Monthly revenue by source

AFTER · $ PER MONTH

+$61K

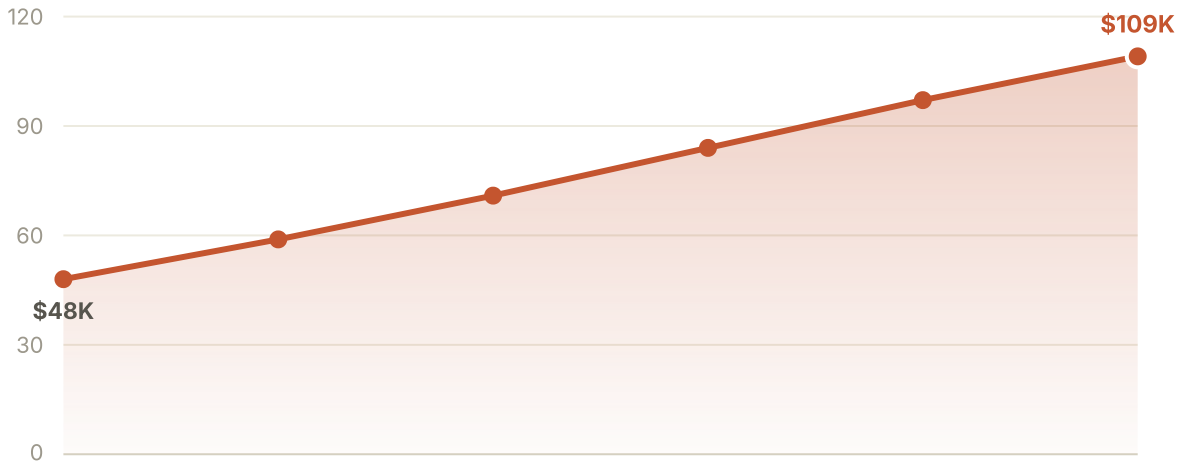

Added in monthly email & SMS revenue versus the baseline — 56% of it driven by automated flows, not one-off campaigns.

02 — THE RESULTS

67 days of compounding revenue.

Monthly revenue from email & SMS

$K PER MONTH

Share of revenue from email
